

i-go is a project run by **Information for Families** at East Sussex County Council and is linked to the Disability Register. (Ask for more information).

Information for Families provides free information and advice to families of children and young people aged 0-25 in the county.

The service is independent and confidential and includes information on:

- services for children;
- childcare and activities; and
- special educational needs.

"Knowing staff are trained and more aware of special needs is reassuring. i-go is opening more doors for us."

Charelle, parent
