

## Parenting Guide | Hastings & Rother

### What's On – August/September 2021

## Introduction

Finally, summer is upon us! Life as we know it is slowly returning to normal and now is a perfect time for a fresh start or brushing up your knowledge ready for the next academic year. Perhaps your child is moving up to secondary school or starting reception and you would like to know the best way to support them.

Whether it is support with toddler tantrums, bedtimes, getting teenagers to cooperate or E-Safety that you could use some tips on, the Parenting Team has got you covered!

As parents we may still be working from home, or not working at all, but there are positive ways to deal with stress and big changes. We are here to support you with our variety of online courses, each with specific tips on how you can deal with the most common behaviour problems; and best of all, these evidence-based methods have already been successful in supporting families worldwide through times of crisis. So, you don't have to do it alone; we'll get through this together. Parents can access as much or as little as they like, and **just small changes will make a big difference!**

The Parenting Team use Microsoft Teams which is free to download and accessible from phones, tablets and laptops! Just simply choose the support you would like to access, email in which course you would like to attend [info@openforparents.org.uk](mailto:info@openforparents.org.uk) and the link to join will be sent to you.

Once you have joined the discussion you can choose to have your microphone and camera either on or off (whichever you are more comfortable with), but we do encourage you to try some face to face with the other parents as the more you engage, the more supported and confident you will feel!

### **Building Teenagers Survival Skills for Risky Situations 2 hours (10+ years)**

Many parents become more concerned about their teenager's safety as they become young adults; they can often try to restrict their teenager's freedom to keep them safe, however this can lead to conflict between parents and teenagers. Talking to teenagers about risky situations can be tricky, as they often believe parents are overreacting. For example, is your teenager looking to go on a sleepover at their friends' house who you don't know? Do they want to stay at home alone, do they want to hang out in town with their friends? Teenagers need to be able to recognise risky situations, have a plan for coping with these and/or avoid more dangerous situations.

Parents can help their teenagers by gradually allowing them more independence to take part in different social events, and the tips you will receive in this workshop are very useful for both parents and teenagers.

Teenagers use digital technologies for everyday activities like keeping in touch with friends on social media, relaxing and doing schoolwork.
