'Reducing Parental Conflict' Project Final Learning & Celebration Event

Thursday 17 December 2020

10.00 - 11.30 am

Microsoft Teams

About the Event

In 2019 Oasis Project was awarded funding from the DWP to establish and deliver a project aiming to reduce parental conflict for families in East Sussex affected by substance misuse, with a particular focus on engaging fathers in support. The 18-month project is being evaluated by University of Sussex.

The project delivered three main tranches of work:

Father's Service - individual therapeutic and parenting support for Dads

Parents as Partners - 16-week couple/parenting programme

Father's Network - reflective, developmental sessions for professionals

During this event, Oasis will look at what the project has delivered, share some early findings and thank those involved in its success.

RSVP to Navraj Sidhu for the Microsoft Teams invite:
